DETAILED ACTION

Response to Pre-Appeal brief request

Applicant's request for reconsideration of the finality of the rejection of the last
 Office action is persuasive and, therefore, the finality of that action is withdrawn.

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claims 11 and 13-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chen et al. (U.S. 6,209,736) in view of Dieringer et al. (U.S. 6,161,710).

Chen et al discloses the claimed invention in figures 1 and 3, a nipple (11) having a stem and a base connected to the stem; a vent (3) disposed within bottle (1) and a bottom cap (4) connected to the second end of the bottle (1). Chen does not discloses the nipple (includes stem and base) wall thickness as recited the claims. However, Dieringer et al teaches in figure 5, that it is known in the art to have the nipple (includes stem and base) wall thickness as being claimed. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to provide the Chen et al's nipple with its wall thickness as taught by Dieringer et al so that it would provide a natural nipple

baby feeding apparatus that eases the transition to and from bottle feeding and natural breast feeding.

Response to Arguments

Applicant's arguments filed 03/27/2006 have been fully considered but they are 2. not persuasive. Applicant's arguments with respect to claims 11 and 13-33 have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin T. Truong whose telephone number is 571-272-4705. The examiner can normally be reached on Monday-Thursday from 8:00 AM to 6:00 PM...

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Hayes can be reached on 571-272-4959. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
